

Village Hall & Pool

By George Davis
General Manager

June's stretch of high temperatures pushed total pool attendance to 1,639 for the month. For the very first time the pool attendance was higher than the

Fitness Center attendance for a month. We had a total of 1,563 visits to the Fitness Center in June. As I write this column we are in another week long heat wave with temperatures soaring close to 100 degrees. The forecast is predicting much cooler temperatures to come. Here's hoping that their forecast is accurate. On July 3rd we began extending pool hours to 8:00 PM daily. We'll continue that until sometime in August, as the days become shorter we'll revert back to the 7:00 PM closing. Be sure to look at our website at westneckvillages.com for the latest update. This is also a reminder that we changed the Fitness Center staffed hours on weekends. We now close Saturday and Sunday at 1:00 PM. As usual, you may access the Fitness Center via your pass code keypad entry system during the following times. You can gain access daily beginning at 5:00 AM until 9:00 AM when we open. In addition, on Monday through Friday you may gain remote access from 7:00 PM until 10:00 PM. On Saturday and Sunday, you can gain access with your pass code from 1:00 PM until 10:00 PM. If you don't have a personal access code and would like to get one, just stop by the Fitness Center and the ambassador on duty will be glad to set one up for you. The response to our new water aerobics

class has been great. Kirsten really does a great job and her students are really pleased to have the opportunity to participate in this class. Yoga has become so popular that Michele has added an evening class on Mondays at 7:00 PM. If you're interested in the Monday evening class, or the regular Thursday afternoon class, just sign up in the Fitness Center. We had 89 meetings or events scheduled for the Village Hall for July. We had 11 groups on summer hiatus in July, so when fall starts, we'll hit our first month where we have in excess of 100 meetings or events booked in a single month. Last minute reservations are going to be harder to come by, so please try and book your events in advance. The Virginia Beach Board of TowneBank hosted a reception at the Village Hall on July 7th. Will Sessoms, who is President of TowneBank Virginia Beach, is also our Mayor. He presided over the event where he introduced Amy Dudley and her new Princess Anne branch staff to our community. Their newly remodeled branch is slated to open in late August or early September. Everyone in attendance raved about the food that was served. It will be great to have a TowneBank branch so close to West Neck. If you haven't experienced the difference that "Hometown Bankers" provide their Towne Bank family members, I encourage you to let them earn your business. One other quick reminder is that National Night Out is scheduled for the Village Hall from 7:00 PM until 9:00 PM the evening of August 3rd. Show your support for our community and the Neighborhood Watch by attending this great annual event.

As always, thanks for your continuing support.

Executive Technologies

Sensible IT Solutions

"David Cando and his staff keep Village News operating. We give him our highest recommendation".
